What are the risks of investing?

Risk indicator for the Total World Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets

goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 March 2022. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement for SuperLife Invest for more information about the risks associated with investing in this fund.

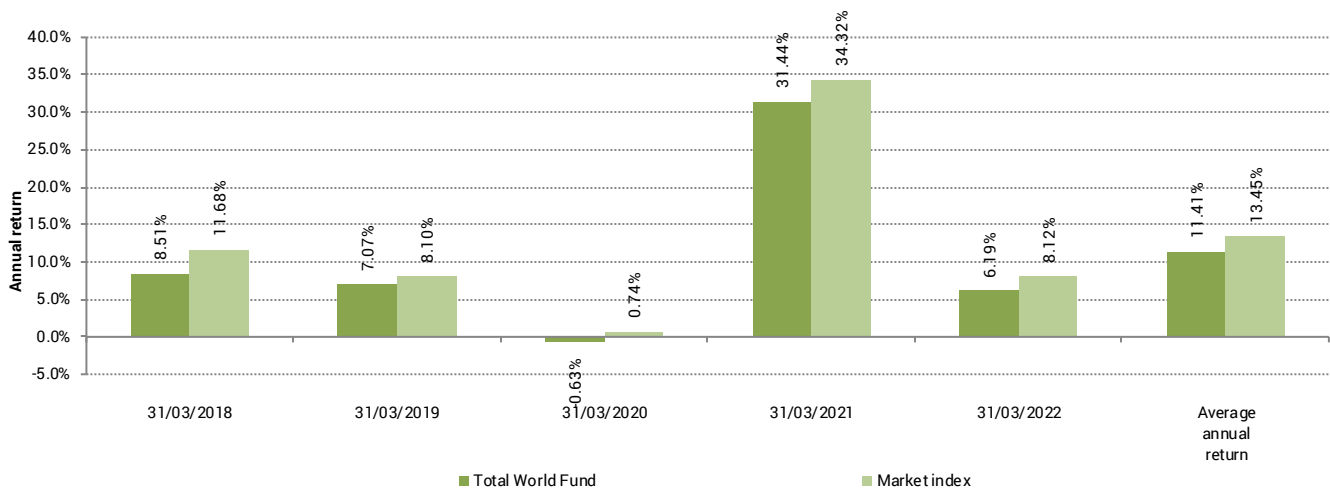

How has the fund performed?

	Average over past 5 years	Past year
Annual return (after deductions for charges and tax)	10.01%	6.19%
Annual return (after deductions for charges but before tax)	10.77%	6.78%
Market index annual return (reflects no deduction for charges and tax)	12.05%	8.12%

The market index annual return is based on the annual return of the FTSE Global All Cap Index. Additional information about the market index is available in the 'Other Material Information' document on the offer register at disclose-register.companiesoffice.govt.nz.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2022.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Total World Fund are charged fund charges. In the year to 31 March 2022 these were:

	% per annum of fund's net asset value
Total fund charges	0.48%
Which are made up of:	
Total management and administration charges	0.48%
Including:	
Manager's basic fee	0.40%
Other management and administration charges	0.01% ¹
Other charges	Dollar amount per investor
Administration fee	\$12 per annum

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the Product Disclosure Statement for SuperLife Invest for more information about those fees.

The fees set out above include GST where applicable.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Jess had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Jess received a return after fund charges were deducted of \$619 (that is 6.19% of her initial \$10,000). Jess paid other charges of \$12. This gives Jess a total return after tax of \$607 for the year.
