

Investment Update

SuperLife workplace savings scheme

AIM myFutureFund

For the quarter ended 31 December 2016

This investment update was first made publicly available on 28 February 2017.

What is the purpose of this update?

This document tells you how AIM myFutureFund has performed and what fees were charged. The document will help you to compare the investment option with funds. Smartshares Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this investment option

AIM myFutureFund invests in the sector funds and is designed to provide a “cash plus” return over the medium term.

Total value of the investment option:	\$486,026
Number of investors in the investment option:	112
The date the investment option started:	15 October 2007

What are the risks of investing?

Risk indicator for AIM myFutureFund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the investment option’s assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://www.sorted.org.nz/tools/investor-kickstarter>

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a investment option’s future performance. The risk indicator is based on the returns data for 5 years to 31 December 2016. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future investment option updates.

Other specific risks

There are other risks that may increase the risk to returns for investors, which are not reflected in the risk indicator. These risks include active management risk. In particular, while SuperLife workplace savings scheme's philosophy is that a passive approach to investing will deliver better long-term results, we make some active management decisions. There is a risk that this may result in the investment option achieving a return that is lower than the investment objective for the investment option.

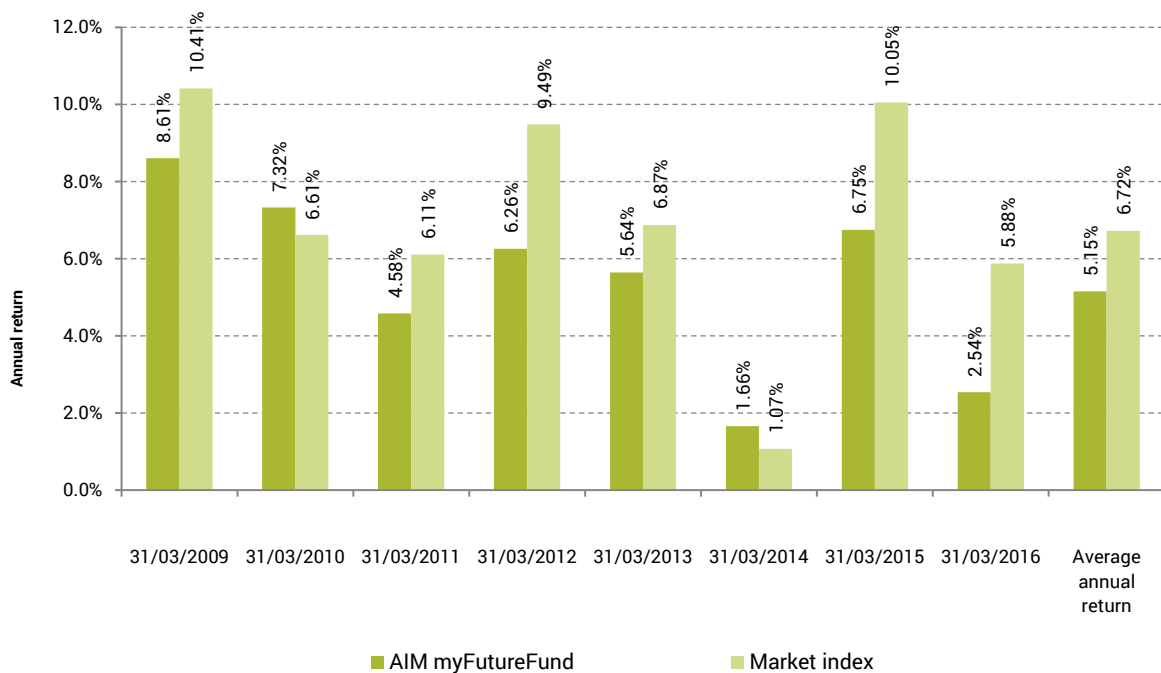

See the "Other Information – Risks" document on the offer register at www.business.govt.nz/disclose for further information.

How has the investment option performed?

	Average over past 5 years	Past year
Annual return (after deductions for charges and tax)	4.04%	3.40%
Annual return (after deductions for charges but before tax)	6.18%	4.64%
Market index annual return (reflects no deduction for charges and tax)	4.99%	4.52%

The market index annual return is based on the annual return for the composite index of the underlying funds. It is made up of the indices used to measure the performance of the assets that the investment option invests in. Additional information about the market index is available on the offer register at www.business.govt.nz/disclose

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the investment option started. The last bar shows the average annual return since the investment option started, up to 31 December 2016.

Important: This does not tell you how the investment option will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in AIM myFutureFund are charged fund charges. In the year to 31 March 2016 these were:

	% per annum of investment option's net asset value
Total fund charges	0.35%*
Which are made up of:	
Total management and administration charges	0.35%
Including:	
Manager's basic fee	0.34%
Other management and administration charges	0.01%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor
Administration fee	\$33 per annum*
Paper statements fee	\$18 per annum ¹

The supplement for your employer may allow you to withdraw money from your member account and transfer it to a KiwiSaver scheme. Where the transfer is to a KiwiSaver scheme other than the SuperLife KiwiSaver scheme, you may be charged a withdrawal fee. The fee is \$50.

* From 9 November 2016, the total fund charges changed to 0.42% per annum of the investment option's net asset value and the administration fee reduced to \$12 per annum. A paper statement fee of \$18 per annum was introduced.

See the "Other Information – Fees" document on the offer register at www.business.govt.nz/disclose for further information about the fees you will be charged for investing in the SuperLife workplace savings scheme.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Jess had \$10,000 in the investment option and did not make any further contributions. At the end of the year, Jess received a return after fund charges were deducted of \$340 (that is 3.40% of her initial \$10,000). Jess paid other charges of \$31². (Jess received statements and other SuperLife communications electronically and was not charged the paper statements fee). This gives Jess a total return after tax of \$309 for the year.
