

Fund Update

SuperLife workplace savings scheme

NZ Top 10 ETF Fund

For the quarter ended 30 September 2016

This fund update was first made publicly available on 3 November 2016.

What is the purpose of this update?

This document tells you how the NZ Top 10 ETF Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Smartshares Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The NZ Top 10 ETF Fund invests in the Smartshares Exchange Traded Funds' NZ Top 10 Fund.

| | |
|----------------------------------|-------------------|
| Total value of the fund: | \$787,748 |
| Number of investors in the fund: | 32 |
| The date the fund started: | 21 September 2015 |

What are the risks of investing?

Risk indicator for the NZ Top 10 ETF Fund¹

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://www.sorted.org.nz/tools/investor-kickstarter>

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 30 September 2016. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Other specific risks

There are other risks that may increase the risk to returns for investors, which are not reflected in the risk indicator. These risks include underlying fund tracking risk. In particular, the fund invests in an exchange traded fund, which is designed to track the return on a specific index. Tracking difference may occur when the weighting of each of the financial products included in the index changes, and the fund that tracks the index is not able to exactly match that change. There is a risk that this may result in the fund achieving a return that is lower than the index being tracked by the fund.

See the “Other Information – Risks” document on the offer register at www.business.govt.nz/disclose for further information.

How has the fund performed?

| | Past year |
|----------------------------------------------------------------------------------|-----------|
| Annual return (after deductions for charges and tax) | 33.30% |
| Annual return (after deductions for charges but before tax) | 34.86% |
| Market index annual return (reflects no deduction for charges and tax) | 37.88% |

The market index annual return is based on the annual return for the S&P/NZX 10 Index. Additional information about the market index is available on the offer register at www.business.govt.nz/disclose

What fees are investors charged?

Investors in the NZ Top 10 ETF Fund are charged fund charges. These are as follows:

| | % per annum of fund’s net asset value ² |
|---------------------------------------------------------------|----------------------------------------------------|
| Total fund charges (estimate) | 0.49% ³ |
| Which are made up of: | |
| Total management and administration charges (estimate) | 0.49% ³ |
| Including: | |
| Manager’s basic fee | 0.25% |
| Other management and administration charges (estimate) | 0.24% ³ |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor |
| Administration fee | \$12 per annum |
| Paper statements fee | \$18 per annum ⁴ |

The supplement for your employer may allow you to withdraw money from your member account and transfer it to a KiwiSaver scheme. Where the transfer is to a KiwiSaver scheme other than the SuperLife KiwiSaver scheme, you may be charged a withdrawal fee. The fee is \$50.

See the “Other Information – Fees” document on the offer register at www.business.govt.nz/disclose for further information about the fees you will be charged for investing in the SuperLife workplace savings scheme.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Jess had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Jess received a return after fund charges were deducted of \$3,330 (that is 33.30% of her initial \$10,000). Jess paid other charges of \$12 (Jess received statements and other SuperLife communications electronically and was not charged the paper statements fee). This gives Jess a total return after tax of \$3,318 for the year.

What does the fund invest in?

Actual investment mix

This shows the types of assets that the fund invests in.

Further information

You can also obtain this information, the Product Disclosure Statement for SuperLife workplace savings scheme, and some additional information, from the offer register at www.business.govt.nz/disclose

Notes

- 1 Market index returns (as well as actual returns) have been used to complete the risk indicator, as the fund has not been in existence for 5 years. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund. The risk indicator for the fund uses 3 years and 11 months of market index returns.
- 2 To the extent that fund charges involve amounts that are fixed as percentages of the net asset value, those amounts have been used to calculate the fund charges. To the extent that amounts are not fixed, a best estimate of amounts has been used.
- 3 Estimates have been used to calculate this amount. In particular, we have made estimates for the costs charged by the supervisor and custodians, the costs charged by the other funds we invest in, and our regulatory and compliance costs. These estimates are based on our experience in respect of other SuperLife managed investment schemes we manage and assume that the fund's actual investment mix will be consistent with the target investment mix set out in the Statement of Investment Policy and Objectives for SuperLife workplace savings scheme.
- 4 You will only be charged this fee if you choose to receive statements and other SuperLife communications in paper form.
